CONDITIONS OF USE DATA FEEDS IMPORTANT CHANGES

1. GENERAL FEED INFORMATION

- 1.1 Data feed requests
- 1.2 Why you should use our data feeds
- 1.3 How to use our feeds
- 1.4 Feed URLs
- 1.5 Update frequencies
- 1.6 Last modified functionality

2. MEDIA

- 2.1 Images
- 2.2 Media FTP server

3. XD CONNECTS DATA

- 3.1 Pricing
- 3.2 Minimum order quantity

4. FEEDS

- 4.1 Product data feed
- 4.2 Product prices feed
- 4.3 Print data feed
- 4.4 Print prices feed
- 4.5 Stock feed
- 4.6 Combined data feed
- 4.7 Explanation and examples of all available attributes per feed

CONDITIONS OF USE DATA FEEDS

This manual will explain the data feeds and will give you more information about how to use this feature. By using these feeds, you agree to the following conditions, called 'Conditions of use data feeds':

1. The feeds are provided to you once.
2. You are responsible for regular updates of the data offered to you by XD Connects. It is also your responsibility to communicate the correct data to your clients.
3. XD Connects determines the format of offering data. In case of a change in format or termination of a format, XD Connects will inform you of this in a timely manner.
4. XD Connects has the right to change product data without informing you prior to the change. This includes, but is not limited to, data about product prices.
5. XD Connects is not liable for the data that you offer to your clients. In case you communicate incorrect data to your clients while correct data is available, XD Connects is not liable for any damages.
6. XD Connects is not liable for any damages claimed by third parties.
7. When data in an order confirmation differs from the data retrieved from the feeds, the data in the order confirmation is binding.
8. XD Connects is not liable in case the feeds are not available (for a short period) because of technical issues or due to technical maintenance. If possible, we will inform you prior to the issue.
9. Brand names, images, videos and other visual material provided via the feeds can only be used for marketing and sales purposes, in no instance does the use of this product data mean that Intellectual Property rights pass to the client.
10. Data shared via the feeds are strictly confidential. Your feeds are company-specific and may not be shared with others.
11. Access to the feeds can be terminated by XD Connects if: 11.1 you act in bad faith 11.2 you infringe on intellectual property rights of XD Connects 11.3 you act contrary to one of the articles from these 'Conditions of use'
12. Any conflicts that arise will be governed by Dutch law and can only be directed to the district court of The Hague.

If you have any suggestions or feedback on how to improve our feeds and data in the future, let us know via onlineclients@xdconnects.com.

MOST IMPORTANT CHANGES

Printing coordinates

Since 2025 we offer the data of the printing coordinates in the print data feed V3. We added the following attributes:

VRP_X: the X coordinate of print area in image

VRP_Y: the Y coordinate of print area in image

VRP_Width: the width in mm of the print area

VRP_Height: the height in mm of the print area

VRP_URL: the image link of the print position.

Printing coordinates can help to determine the specific position of the print area in the XD product image. This data can be used to implement in a logo visualization tool. Note that this data has some limitations. We have not been able to gather this data for all possible print options. In addition, some printing areas have shapes other than a rectangle or a square, for which it is not possible to show coordinates of the actual printing area, only a rectangle around it. If you have questions about this, please contact us directly via: onlineclients@xdconnects.com

Order of attributes

In the Generic Product V5 and the All data Generic V5 (combined), the order of attributes has changed due to a lot of new additions of attributes, also some attributes have been deleted which were not applicable anymore.

Dangerous goods

In the product data and in the combined data feed you can from now on find the regulation of dangerous goods. For items that for instance have a battery or contain liquids, the regulation is in the attribute "dangerous goods".

Tech items

We added many tech related attributes to our product data such as PlayTimeHours, WaterproofLevel, TotalOutputPowerWatt, CanChargeLaptop etc.

Textiles

In January 2023 XD Connects introduced the textile brand *Iqoniq*. A complete new range of textile products that has a lower impact on the environment. This new product group leads to essential new attributes in our data feed such as *textilesize, fit, fabric* and more.

CO2 emissions

CO2 reduction is one of the main ambitions XD Connects has in its ESG Roadmap. We are proud to be able to show something that is new in our industry: **The complete and transparent CO2 emission per product!** Not only do we specify this in our product data feed, but we also show the total CO2 footprint as a symbol in the main image of the product.

Composition product numbers

Due to the introduction of textile items and including a part of the Vinga products to our collection, the product number composition for these items will be different from our current products. For example, we will show the sizes of textile in our product number: T9100.004.XXL. For the Vinga products, we will use the already existing product numbers such as V4457 or 47778. **Please be aware of the fact that the number of digits are not the same for all products anymore.**

Print prices

In the Print prices V3 we added some new attributes to make it easier to refer the print prices to the print data, like the original production SKUS. We also added VDP (variable data printing) and Sleeving prices to our print price data feed.

1. GENERAL FEED INFORMATION

1.1 Data feed requests

Would you like to receive our data feeds or prefer another feed format? Please send an email to onlineclients@xdconnects.com or contact our sales team with your contact details, XD Connects debtor number and the following information:

1. Which feed format?

- XML
- CSV (txt, **Tab** separated)
- Excel
- JSON

2. Which feeds?

- Product data feed
- Print data feed
- Product prices feed
- Print prices feed
- Stock feed

- Combined data feed ; a combination of the 5 feeds above, only showing the default print option and pricing

3. Which language(s)?

Our feeds are available in 13 different translations:

CZ	Czech
DE	German
DK	Danish
EN-GB	English
ES	Spanish
FI	Finnish
FR	French
HU	Hungarian
IT	Italian
NL	Dutch
NO	Norwegian
SE	Swedish
SK	Slovak

In the URL of your feed, you can see the selected translation. If you need multiple languages, you will need to request for separate feed links for each language.

1.2 Why you should use our data feeds

A product data feed makes it quick and easy to load information about thousands of products to a webshop. One of the crucial aspects of a data feed is the structured nature of the information. In certain formats, it can look a bit confusing, but the structured fields make it easy for algorithms and programs to understand and use the data. Using the structured feeds also decrease the chance of errors.

Each item in a data feed (a product or record) will have many pre-set attributes. These both define the product and make it unique from other items in the feed. A product listing in a data feed can also contain links to images. Shopping websites and other destinations use this for displaying information.

Another reason to use the data feeds is that the information is always up to date. XD Connects introduce items throughout the whole year, and by using our feeds, you can add these new items to your webshop on a regular bases. Same goes for price changes, stock levels and print information.

1.3 How to use our feeds

Our data feeds are available in four different formats: JSON, XML, CSV and Excel. JSON, XML and CSV are more suitable to connect to your system, while Excel is easier to use if you want to do some manual adjustments to the data before you upload it into your system. The content of the feeds is the same in all formats.

Important! Every time you use the URL to open the feed, the feed will automatically connect with our server and download the most up-to-date information. If you save the downloaded file on your computer separately, the data will **not** update and you will use old data. Make sure to click or download the data just before you use the data to get the most recent data, prices and stocklevels.

1.4 Feed URLs

We create the feeds on our feeds server, for which you will receive direct links for your **customer specific data feeds**. We do not share your links with others. Due to the restrictions of 'conditions of use data feeds' you need to forward the feeds to your IT-support company yourself if needed. We provide the following feedlinks:

Feed	Example of the URL
Product data feed	https://feeds.xindao.com/Feeds/Download/.../Xindao.V5.ProductData
Product prices feed	https://feeds.xindao.com/Feeds/Download/.../Xindao.V2.ProductPrices
Print data feed	https://feeds.xindao.com/Feeds/Download/.../Xindao.V3.PrintData
Print prices feed	https://feeds.xindao.com/Feeds/Download/.../Xindao.V3.PrintPrices
Stock feed	https://feeds.xindao.com/Feeds/Download/.../Xindao.V2.Stock
Combined data feed	https://feeds.xindao.com/Feeds/Download/.../Xindao.V5.AllData

Note: the links above are not active; please send your request for data feeds to onlineclients@xdconnects.com

1.5 Update frequencies

It is highly recommended to update your data regularly, as we make changes frequently. Not only do we add new items to our collection every week, it is also possible that we make changes to the items that are already in our collection. Every possible data point can change and therefore, it would be good to do a total refresh regularly. Just to be sure that the information that you are sharing with your customers is up-to-date and correct. It is your responsibility to have the most up-to-date and correct data in your system.

Overview of the update frequencies of our data:

Product data	every hour
Print data	every day (02.00 hr)
Product prices	every day (00.00 hr)
Print prices	every day (00.00 hr)
Stock	every 15 minutes
Combined data	depends on the element of the data (see above)

Please plan your updates a bit later than our update times.

Advised would be to do an update on the product & print data and all prices at least once a week (preferably on Tuesday), and if you are using the stock positions it is always good to have this as much updated as possible (preferably every hour).

It is not necessary to do more updates than our own update frequencies shown in the schedule above. To prevent an overloaded system on our side, updating more than once within 5 minutes will result in an error.

In all our data feeds you can find the label 'FeedCreatedDateTime' where you can find the date and time when this specific data feed was created / downloaded. In this way, you will have insight in how recent the data is that you are working with or if you need to update your data.

Please note: We will not inform you when data and prices change.

1.6 Last modified functionality

In our feeds, we offer a functionality that might be helpful to have a better insight in the product changes. We recommend to frequently update the data for all items, but if you want to do some checks on if you have implemented the most recent changes, this tool might be an easy solution. In all our feeds (except stock feed) you will find a separate field with the item last modified date. For the stock feed we don't have this information available, as the stock positions change very often.

Important! Please note that this information is just an indication, no rights can be derived. Please keep updating all your data frequently, and never only focus on the items that have changed according to this data.

2. MEDIA

We offer high quality images and videos of our products. It is highly recommended to show as much images and videos as possible on your shop.

Available types of media at XD Connects:

- Product images standard product images with white background (blank or with a print)
- Mood images atmospheric image of the product in a setting
- Line drawings product image with the area marked where the item can be printed
- Product videos video's that highlight the use or functionalities of the product

In our feeds, we have included direct links to the following media:

- Product & mood images 1024 px in JPG
- Line drawings 600 px in PNG
- Product videos direct links to Vimeo and YouTube

In case you use the direct links in the feed to our media, please make sure to update the images frequently. If we make any changes in the images, it is possible that the link you refer to cannot be found. For images, we use a unique identifier. When the image changes, it will get a new link.

2.1 Images

In our product data feed we have space for 14 images in separate attributes (product & mood), but sometimes we have more than 14 images available for one item. If you want to be sure not to miss any images, please use the field 'Allimages'. Another option would be to use our image FTP server instead of the direct links (check chapter 2.2 Media FTP server).

XD Connects image ID structure

Product.ID__ImageType_NumberRange.jpg (example: p705.542__b_1.jpg)

ImageType options:

B = blank / product picture without decoration
D = decoration / product picture with decoration
D_G = decoration + group / group shot with decoration
F = fit / product on model (textiles)
G = group / picture of item family, multiple colours
M = mood / atmospheric picture of the product in a setting
P = Packaging / Product with packaging and plain packaging
S = Symbol / Product on white background and CO2 values

NumberRange options:

B = 1-99
D = 100-199
D-G = 200-249
F = 250-299
G = 300-399
M = 400-499
P = 500-599
S = 0

2.2 Media FTP server

Instead of using the direct links in our data feed, you can also use our FTP server for downloading images and videos. Here you will find more image sizes & formats and some additional media like the original video files and our brand logos.

<ftp://media.xindao.com> (no login details required)

Available content on our media FTP server:

- | | |
|--------------------------------------|--|
| - Product images (JPG, RGB) | in 3 sizes: 600, 1024 & 3000 px |
| - Product images – original or small | |
| - Line drawing images | PNG, 600 px |
| - Original product videos | MP4 |
| - XD Connects brand logos | EPS, JPG, PNG & SVG |
| - Personalization | in 2 sizes: LR (600 px) & HR (3000 px) |

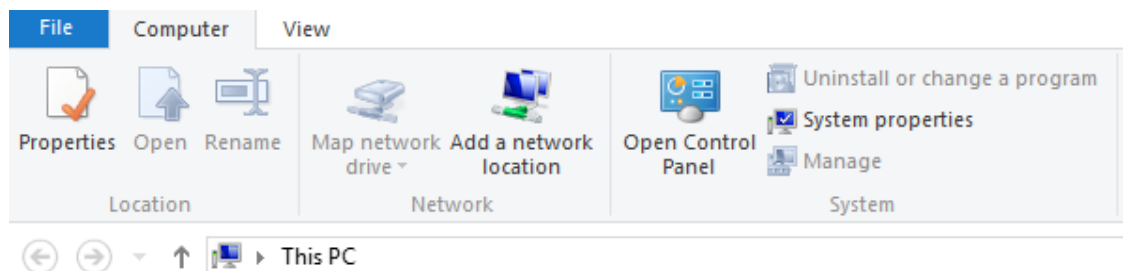

How to connect to the media FTP server?

There are two ways to connect to our image server: either you choose for the easy and manual way, or you can choose for a FTP client.

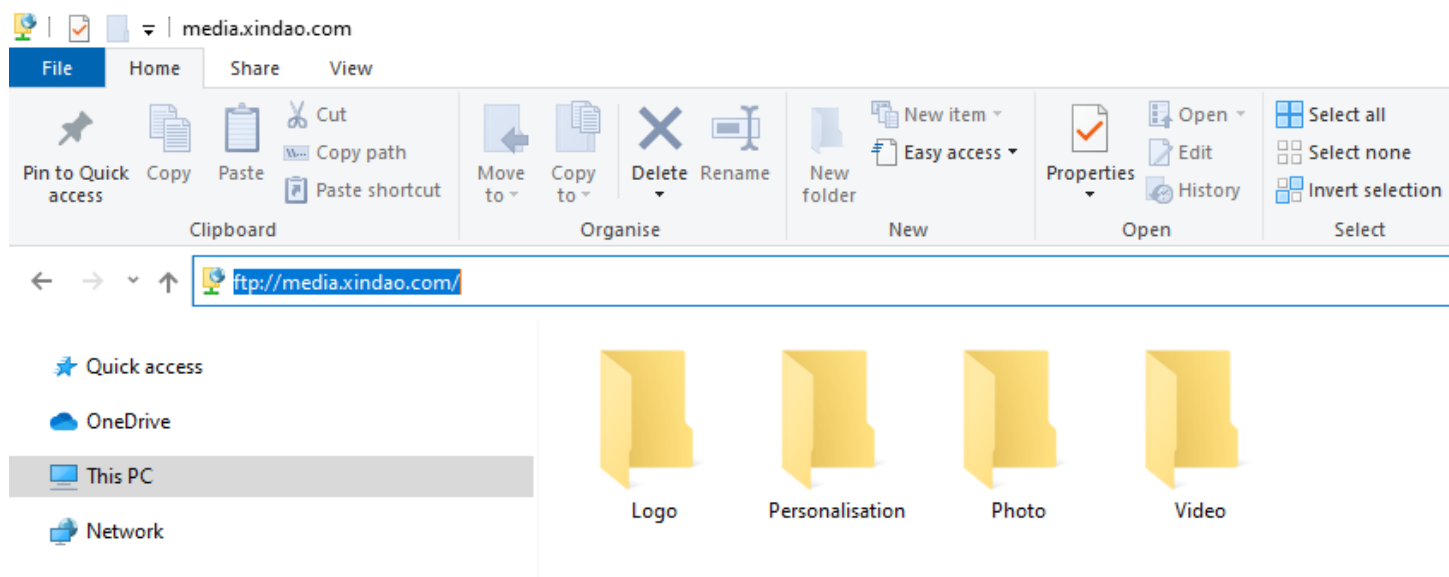

➤ Manual access to FTP server

If you want establish a FTP connection manually, you will have to take the following steps.

1. Go to the main directory on your PC

2. Copy the following link to your file explorer address bar: <ftp://media.xindao.com> (no login details needed) and you will directly enter our server.

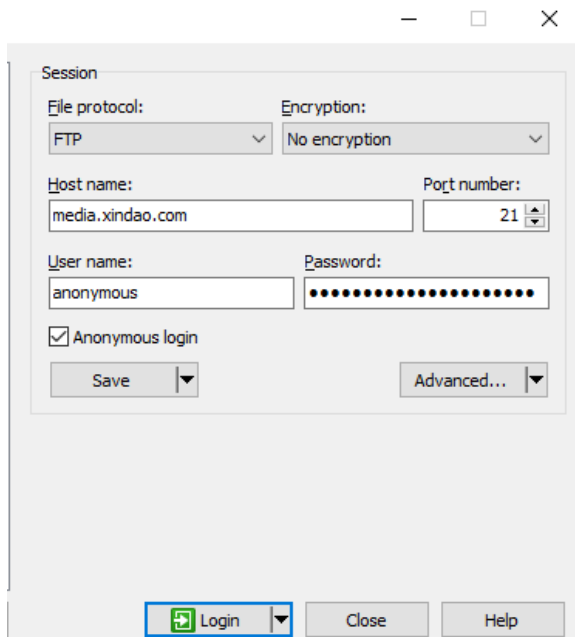

3. Here you will see folders with our images, brand logos and videos, which you can easily copy to your own pc

➤ **Use a FTP Client to access FTP server**

It is also possible to retrieve the files through a FTP client (such as [FileZilla](#), [Cyberduck](#) or [WinSCP](#)). A FTP client is software designed to transfer files between a computer and a server over the internet and needs to be installed on your computer. FTP clients have some benefits over the manual way, for example you can resume downloads that have not finished successfully, which is a nice feature if you have a slower internet connection.

If you use one of the mentioned FTP clients, the quickest way is to login anonymous. You can establish it by checking the Anonymous login checkbox like the example below, which is from the WinSCP ftp client. (Works similar for other FTP clients)

The image shows a screenshot of the WinSCP 'Session' dialog box. The 'File protocol' is set to 'FTP' and 'Encryption' is set to 'No encryption'. The 'Host name' is 'media.xindao.com' and the 'Port number' is '21'. The 'User name' is 'anonymous' and the 'Password' field is filled with dots. The 'Anonymous login' checkbox is checked. There are 'Save' and 'Advanced...' buttons. At the bottom, there are 'Login', 'Close', and 'Help' buttons. The 'Login' button is highlighted with a blue border.

3. XD CONNECTS DATA

In this chapter we explain more about our data in general. This will help you to understand how to use our data and prices correctly. Please note that all info in this chapter is general, so in specific cases it might work differently.

3.1 Pricing

Net & gross prices

In the feeds, you find both net & gross prices for products and print:

- Net prices: your net buying price at XD Connects with your specific discount
- Gross prices: sales advisory prices towards your customers

Your net prices are based on the gross prices. If your discount is for example 25%, your net buying price will be gross price minus 25%, this is how it works in general. There are some items where the discount on the item is fixed for all customers (e.g. USB items) and might therefore not match your customer specific discount. These items are marked as 'NonStandardDiscount' "True".

Product prices

For blank (undecorated) items we use tier pricing. For different quantities, we offer different prices. The more pieces you buy, the lower the price will be. Every item has 6 tier prices, always starting from 1 piece. The quantities for the remaining 5 tiers can be different for each item, as the tiers are based on the item price. The more expensive an item is, the smaller the steps in quantities are between the different tiers. See below an example of a blank product pricing for an item:

Item P436.285 - blank product prices						
Quantity	1	100	250	500	1000	1500
Gross price	10,61	10,32	10,02	9,73	9,54	9,34
Net price*	7,96	7,74	7,52	7,30	7,16	7,01
* example with 25% discount						

In this example your net buying price for this item will be 7,96 (each) for 1 piece up to 99. From 100 pieces you pay a lower price: 7,74. So if you would like to order 50 pieces from this item, you will pay $50 \times 7,96 = 398$.

Print prices

If you would like to personalize the item with a logo or text, you will also have to pay print costs on top of the blank product price. When printing items there are multiple possible extra costs involved:

- Print tier price:
The print tier price is the print cost you will need to pay for each individual item. The price depends on the print technique, the quantity and sometimes the amount of colors and/or the print size. This will always be charged when placing a printed order, and is available as gross and net prices.
- Print setup costs:
For most print techniques, you will have to pay setup costs, and this is charged once for every logo and/or print location. The setup cost is only available as a net price.
- Printed sample costs:
This will be charged when you choose to first receive a printed sample of the item, before receiving or even placing the complete order. This is only available as a net price.
- Small order charge:
The small order charge only applies when you place a **printed** order below 50 pieces. Some print techniques are excluded and for these techniques, you can order less than 50 pieces without this extra charge. This is only available as a net price.

Please note: we do not charge any handling costs anymore as we did in the past. This could only be charged when you have a special request, but for standard orders, it will not be included.

The print tier prices are setup the same way as product tier prices, except that the quantities for print are fixed so all techniques have the same tier quantities. Your customer specific discount applies also on the print prices.

Important: Items within one model can be priced differently. For example, when a selected color within a model is discontinued, while the other colors within the model will stay in the collection. Therefore, always link product prices on item code level and not on model code level.

3.2 Minimum order quantity

At XD Connects we don't have a MOQ (minimum order quantity). You can order any desired amount from 1 piece for all items from stock. All items can be ordered in all possible quantities.

Small order charge

For blank orders we don't charge anything extra for small orders, but for printed orders we charge an extra fee for orders below 50 pieces: the small order charge. The exact costs can be found in our print price feed in the field 'SmallOrderChargeNet'. This is always a net price and depends on the print technique. For some print techniques we don't have a small order charge, in this case you will find '0' in this field. The small order charge is calculated per logo/position and color. If you have an order of 25 pieces with 2 different prints on the same item, we will calculate the small order charge twice.

4. CONTENT FEEDS

We offer multiple feeds where you will find all information you need:

- Product data feed: all product specifications and print data for default print option
- Product prices feed: all product prices (net & gross)
- Print data feed: all possible print options for each item
- Print prices feed: all print prices (net & gross)
- Stock feed: stock positions for each item (current + future stock)

- Combined data feed: product data + print data + product prices + print prices + stock

If you want access to the most complete set of data, you will need to use the first 5 feeds. If you rather work with just one data file where you will find most information you need, you can use the 'Combined data feed' instead of the first 5 feeds. Please note that in this case you will have access to more limited data and print prices.

4.1 Product data feed

The product data feed will provide you all product related information. From item specifications to battery data, images, packaging info, ESG related info and a many more. In this feed you will also find the print data for the default (=recommended) print option. All other available print options are included in the 'print data feed'.

4.2 Product prices feed

The product prices feed shows net and gross product prices for the 6 different price tiers. The tier quantities vary per item, depending on the product price, but the first tier starts always with '1'. Some products have a fixed price for all quantities, and therefore show only 1 price and 1 quantity.

Net & gross prices

- Gross prices: sales advisory prices towards your customers
- Net prices: your net buying price based on your customer specific discount

Please note: there are some items where the discount on the item is fixed for all customers (e.g. USBs) and might not match your customer specific discount. These items are marked in the feed as 'NonStandardDiscount'.

Outlet

Items that will be discontinued soon, are marked as "outlet". These items have been lowered in price. Please note that within a model a SKU/variant can be discontinued, while others will stay in the collection. Therefore, we recommended always showing and processing prices on item code level and not on model code. Keep this in mind when placing items in your "sale" section.

4.3 Print data feed

The print data feed provides you all print related information. In the product data feed you could already find the default (=recommended) print option, in our print data feed you will also find all other available print options for each item. One item can have multiple print options, including different print techniques and print locations on the item. Every print option is a different line in the feed, so one item can have multiple lines in the feed.

Note: Within a model, there can be a difference in the available print options between the different colors (SKU), therefore, **always link print data on item code level** and not on model code level.

4.4 Print prices feed

In this feed you will find all available print prices. You can use the print code from the product data feed or print data feed to find the matching prices for a specific print option. Note that one print technique can have multiple print codes.

Net & gross prices

- Gross prices: sales advisory prices towards your customers
- Net prices: your net buying price based on your customer specific discount

Please note: for some charges we don't have a gross price available, but only a net price (setup, print sample & small order charge).

Print techniques with color and/or size depending prices

For some print techniques, the print price depends on the amount of print colors and/or print size.

- Color depending prices: the more colors the print has, the higher the setup charges and print price per piece will be. If the print technique has color depending prices, there should be data visible in the field 'NrOfColors'.
- Size depending prices: the larger the print area, the higher the print price per item. If the print technique has size depending sizes, there should be data in the field 'PrintArea'. For CO2 engraving and Diamond engraving, we have only prices available for 1 size. If you would like to print a larger area, the price is on request.

Setup charges

- In general, we charge setup costs for printed orders, but there are some print techniques for which we don't charge setup costs
- For print techniques with color depending prices the setup charges will increase for every added color

Variable Data Printing (VDP)

VDP is a service from XD Connects that makes it possible to personalize the print for each item individually, for example by adding the name of the receiver. In the data feed you can see on which items and print techniques VDP is possible.

The price setup for VDP is as following: on top of the regular print costs (e.g. for laser engraving) you pay an extra charge, which is a fixed fee per item (net price). This is the case when the individualization is within the same location as the rest of the logo. If you would like to place the individual text separately from the logo on a different print location, you will pay the regular print costs twice as we see this as two different prints. Please find the prices and coding for VDP in print prices V3.

Original production SKU's

In the V3 print price feed we decided to also show the production SKU's that are shown on the invoice. In this way, it might be easier to match the referring printing techniques.

4.5 Stock feed

In our stock feed, you will find information about the stock positions for each individual item. Not only will you find the current available stock in here, but also the two next incoming stock quantities including dates and a total of all future stock deliveries.

How to use?

You can use this information to inform your customers about the availability of an item. You might consider showing the stock availability on your site, so the customer knows directly what he can expect. On the other hand, you might also choose to use this

data only in the backend of your shop, so you can inform your customer personal about the expected delivery time and at the same time do suggestions for other colors or similar items if item is unavailable until customer's deadline.

Updates

It is important to update stock levels as much as possible, as it changes frequently. Make sure you have the most up-to-date information, so you will not have to disappoint your customers. The stock data in our feed updates every 15 minutes, but even then, it might occur that the data is outdated when we just received an order.

Note: on our website and in our old feeds we show the available stock quantities for future stock (incoming stock quantities + current available stock), in our new feeds you will find the incoming quantities for the specific dates.

4.6 Combined data feed

Would you rather work with just one feed where you will find most data you need? Then you might consider using our 'combined data feed'. In this data feed you will find the following data:

- All product data
- Print data for default (=recommended) print option
- All product prices
- Print price for default print option with one color and/or smallest print size
- All-in prices (item price + print price)
- Stock positions for current available stock and first next incoming stock

This feed might be easier in use, but note that you will have access to a bit more limited data.

Product & print prices

This 'Combined data feed' is created with the idea that it should be as easy as possible to use and therefore the prices are displayed differently in this feed from the others. Because the quantity bars for product prices and print prices are not always matching, it might be a bit more difficult to calculate the correct price. Therefore, you will find in this file the item and print prices for the same quantity bars and next to that there is also an 'all-in' price included, so ideal if you want to simplify your price calculations.

Differences in price display compared to our other feeds:

- Product prices: shows always 6 quantities and 6 prices, even if it is an item with a fixed price for all quantities (in all price columns you will see the same price)
- Print prices: the quantities are based on the 6 product quantity bars for the default print option
- All-in prices: product price + print tier price for default are calculated (setup and other charges are not included in this price).

Note: the print price shown in this feed is based on the cheapest print price available for that print technique. This means the following:

- Print prices for color dependent techniques are based on 1 color print
→ If you receive an order for a multi-color logo, you will be charged a higher print price + set-up
- Print prices for size dependent techniques are based on smallest print size
→ If you receive an order for a larger sized logo, you will be charged a higher print price

4.7 Explanation and examples of all available attributes per feed

Feed	Attribute	Explanation	Example
All data V5	FeedCreatedDateTime	Date and time when the feed is created	10-02-2025 13:56:14
All data V5	ItemPrintDataLastModifiedDateTime	Date and time when print data was modified	14-09-2024 23:32:38
All data V5	ItemPrintPriceLastModifiedDateTime	Date and time when print price was modified	12-08-2023 12:37:02
All data V5	Currency	Currency	EUR
All data V5	ModelCode	Code for the complete product model including all underlying colors. This can be used to group the different colors (item codes) of the same product	P322.70
All data V5	ItemCode	Unique item code for the specific color (SKU)	P322.705
All data V5	ProductLifeCycle	Current life cycle status of item, options: new, current or outlet	Current
All data V5	IntroDate	Date of introduction of the item, not available for all our items	6-1-2022
All data V5	ItemName	Item name, can also be used as a meta title for your images	Urban Vitamin Alameda 10.000 mAh 18W PD powerbank
All data V5	LongDescription	Long item description	Charge your phone up to 2.5 times with this fast charging powerbank. Thanks to the ultra fast type C 18W PD port, the powerbank re-charges in record time. Charging your phone up to 50% takes only 30 minutes. Slow charging is something from the past. The powerbank contains a long lasting A-grade 10.000 mah battery to charge all your devices on your travels and adventures. The double USB A and type C port allow you to charge up to 3 devices at the same time. Urban Vitamin items are made without PVC and packed in plastic reduced packaging. Type-C Input: 5V/3A, 9V/2A; Micro USB Input: 5V/2A, 9V/2A; Type-C Output: 5V/3A, 9V/2A, 12V/1.5A; USB Output: 5V/2.4A, 9V/2A, 12V/1.5A
All data V5	Brand	Brand name	Urban Vitamin
All data V5	MainCategory	Product main category	Phone & Tablet accessories
All data V5	SubCategory	Product sub category	Powerbanks
All data V5	Material	Material of item (first and second material)	Acrylonitril Butadiene Styrene (ABS)
All data V5	Color	Color of item (first and second color)	blue
All data V5	PMSColor1	PMS code for first item color	2161C
All data V5	PMSColor2	PMS code for second item color	Orange 021
All data V5	HexColor1	Hex code for first item color	2882DC
All data V5	HexColor2	Hex code for second item color	3D332B
All data V5	InkColor	Pen ink color	blue
All data V5	ItemLengthCM	Item length in cm	9,5
All data V5	ItemWidthCM	Item width in cm	6,3
All data V5	ItemHeightCM	Item height in cm	2,3
All data V5	ItemDiameterCM	Item diameter in cm	6,5
All data V5	ItemDimensions	Item sizes combined (txt)	9.5 x 6.3 x 2.3 cm
All data V5	ItemWeightNetGr	Weight of item in grams	196
All data V5	ItemWeightGrossGr	Weight of item and everything that comes with the item in grams (item packaging, manual, cables etc)	326
All data V5	CountryOfOrigin	Country where item has been produced	CHN
All data V5	CommodityCode	Code used to classifying goods for import and export, also called HS code, Intrastat code or customs code	8507600090
All data V5	EANCode	EAN code	8714612127674
All data V5	WEEE	Waste Electrical and Electronic Equipment	TRUE
All data V5	Batteries	Item needs batteries to function, batteries are always included	TRUE
All data V5	BatteryType	Type of battery	Li-poly
All data V5	NrOfBatteries	Number of batteries needed and included	2
All data V5	BatteryWeightGr	Battery weight in grams (per piece)	80
All data V5	BatteryChemicalComposition	In development - Chemical composition of battery	Lithium
All data V5	IECCode	IEC battery code	115570
All data V5	ItemManual	Digital version of the manual that comes with the item	https://static.xindao.com/ProductManuals/Manual P322.70X__1e686bd2d73a9423783a2b9f1f80f6905.pdf
All data V5	PackagingTypeItem	Packaging type of item	Gift box
All data V5	ItemBoxLengthCM	Length of individual item box in cm	16,5
All data V5	ItemBoxWidthCM	Width of individual item box in cm	11
All data V5	ItemBoxHeightCM	Height of individual item box in cm	3
All data V5	ItemBoxDiameterCM	Diameter of individual item box in cm	13,3

All data V5	ItemBoxDimensions	Individual item box sizes combined (txt)	16.5 x 11 x 3 cm
All data V5	OuterCartonLengthCM	Length of outer carton in cm	35
All data V5	OuterCartonWidthCM	Width of outer carton in cm	17,5
All data V5	OuterCartonHeightCM	Height of outer carton in cm	24,5
All data V5	OuterCartonDimensions	Outer carton sizes combined (txt)	35 x 17.5 x 24.5 cm
All data V5	OuterCartonWeightNetKG	Total net weight of items in a full outer carton in kg (ItemWeightNetGr x OuterCartonQuantity)	6,5
All data V5	OuterCartonWeightGrossKG	Total gross weight of all items, packagings and extras in a full outer carton in kg (ItemWeightGrossGr x OuterCartonQuantity + packaging weight inner boxes & outer carton)	7
All data V5	InnerboxQty	Quantity in pieces per inner box	1
All data V5	OuterCartonQty	Total quantity in pieces in outer carton	20
All data V5	RestrictedCountriesForSale	Countries where that item cannot be sold.	CHE, DE
All data V5	Mailable	Item fits through the letterbox	TRUE
All data V5	Compliance	Regulations, policies and procedures where item has been tested on	Conform PAHS content in Reach & ZEK 01-4-08, Conform Phtalate content, Conform Battery transportation safety directive UN38.3, Air transport certificate used for air shipment, Conform Alkaline batteries safety directive EN62133, Free from short- and medium-chain chlorinated paraffins, Conform protection against electric shock and energy hazards directive EN60950-1, Material safety data sheet available, Conform Hazardous substances directive 2011/65/EC & 2015/863, Conform Electromagmetic directive 2014/30/EU
All data V5	Certifications	Available URL to certificate(s) of the product	https://static.xindao.com/ProductCertificates/Declaration of conformity EU P322.70X__41a60f5c0ea745fd9bb0d40ad6506aab.pdf , https://static.xindao.com/ProductCertificates/Statement of compliance P322.70X__a3acbffa48f745df9ad175f5995d4138.pdf , https://static.xindao.com/ProductCertificates/Testreport MSDS P322.70X__7ac2bfe9b6874f56b4f8f565c60b5f23.pdf , https://static.xindao.com/ProductCertificates/Declaration of conformity UKCA P322.70X__2e59ff733e3c425d8877f016506e0f1a.pdf
All data V5	DangerousGoods	Regulation of dangerous goods	UN3480 Section 1B
All data V5	Social Audits	The item is made in a factory that passed this social audit	BSCI
All data V5	Eco	Item with a lower impact on the environment	TRUE
All data V5	Traceability	Traceability claim(s) of recycled materials (Content changed into comma separated values)	FSC 100%, RCS Blended
All data V5	Charity	Supported charity	Water.org
All data V5	Used PET Bottles	How many PET bottles were used for production of 1 piece	7,1
All data V5	PVC free	Is the product PVC free	TRUE
All data V5	Recycled Content Percent	Percentage of the recycled content of the item	47
All data V5	Digital passport	URL to the digital passport of the item	http://www.wearaware.co/PU037421-T9100.001
All data V5	HasFSCPackaging	Has FSC Packaging	TRUE
All data V5	HasPlasticFreePackaging	Item has plastic free packaging	TRUE
All data V5	Product Box net weight plastic GR	Net weight of plastic packaging material in grams	15
All data V5	Product Box net weight carton GR	Net weight of carton of product box in grams	203
All data V5	Product Box net weight other GR	Net weight of other material product box in grams	4
All data V5	Product Box gross weight GR	Gross weight of product box grams	218
All data V5	Dishwasher safe	Item is dishwasher safe	TRUE
All data V5	Carry handle	Item has a carrying handle	TRUE
All data V5	CarryHandleType	the type of the carrying handle	Carry loop
All data V5	HasANC	Item has Active Noise Cancelling	TRUE
All data V5	ANCLevelDB	Level of Active Noise Cancelling in decibel	25
All data V5	HasAutoPair	item has automatic pairing function	TRUE
All data V5	ChargingCaseBatteryCapacityMAh	Battery size charging case	600
All data V5	EarbudBatteryCapacityMAh	Battery size earbud	300
All data V5	BTVersion	BT version	5.3
All data V5	InputChargingConnectorType	Charging connector type	Type-C
All data V5	ChargingTimeHours	Charging time in hours	3
All data V5	HasENC	Has environmental noise cancelling	TRUE
All data V5	ExtraEarTipsIncluded	Extra ear tips included in the item	TRUE

All data V5	IsFoldable	Item is foldable	TRUE
All data V5	HasPouch	Pouch is included	TRUE
All data V5	ChargingCableIncluded	Charging cable included	TRUE
All data V5	HasIntegratedLight	Item has an integrated light	TRUE
All data V5	HasMicrophone	Item has microphone	TRUE
All data V5	OperatingDistanceMeters	Operating distance in meters	10
All data V5	AudioWearMethod	Audiowear method ID	over ear
All data V5	HasPickupFunction	Item has a pick up function	TRUE
All data V5	PlayTimeHours	Play time in hours	30
All data V5	HasSubwoofer	Item has a subwoofer	TRUE
All data V5	HasTouchFunction	Item has a touch function	TRUE
All data V5	HasUSBOutput	Item has USB output	TRUE
All data V5	HasVoiceControl	Item has voice control	TRUE
All data V5	HasBluetooth	Item has bluetooth	TRUE
All data V5	NumberOfSpeakers	Number of speakers	2
All data V5	SpeakerOutputW	Speaker power in Watt	10
All data V5	WaterproofLevel	The waterproof level of the item	IPX 7
All data V5	HasChestStrap	Item has a chest strap	TRUE
All data V5	FitsLaptopTabletSizeInches	Fits laptop and tablets in inches	17
All data V5	MaximumSupportedCurrent	Maximum supported current	5V/2A - 9V/2A
All data V5	SupportsCarPlay	Supports Car Play	TRUE
All data V5	HasLightningOutput	Has lightning output	TRUE
All data V5	HasMicroUSBOutput	Has micro USB output	TRUE
All data V5	ChargingCableLengthCM	Cable length in cm	100
All data V5	CanCableSync	Is able to sync (transfer data)	TRUE
All data V5	IsMicrowaveSafe	Item is microwave safe	TRUE
All data V5	Leak Prevention	Leak prevention of item	spillproof
All data V5	Insulation	Type of insulation	plastic
All data V5	HoursHot	Keeps hot in hours	2
All data V5	HoursCold	Keeps cold in hours	4
All data V5	FitsCoffeeMachine	Fits under a coffee machine	TRUE
All data V5	ContentVolumeLiters	Content volume in liters	0,6
All data V5	CircumferenceCM	The circumference of the hat in cm	58
All data V5	HatClosureType	Closure type of the hat	buckle
All data V5	HatModel	Kind of hat model	6 Panel cap
All data V5	USBVersion	USB Version	USB C
All data V5	USBAPortQty	Number of USB A ports	3
All data V5	USBCPortQty	Number of USB C ports	1
All data V5	LaserClass	Laser class	Class 3
All data V5	BookCoverType	Cover type (hardcover, softcover)	hardcover
All data V5	NotebookFormat	Size of the notebook	A5
All data V5	PaperWeight	Paper weight (gr/m2)	80
All data V5	StationaryPaperColor	Paper color	cream
All data V5	NumberOfPages	Number of pages	160
All data V5	PaperRulingLayout	Paper ruling layout	lined pages
All data V5	USBAChargingOutputSpeed	USB-A charging output speed	5V/1A + 5V/2A
All data V5	USBCChargingOutputSpeed	USB-C charging output speed	5V/2A
All data V5	PhoneChargeCount	How many times to charge phone	5
All data V5	HasUSBCOutput	Has USB C output	TRUE
All data V5	CanChargeTablet	Can charge a tablet	TRUE
All data V5	CanChargeLaptop	Can charge a laptop	TRUE
All data V5	TotalOutputPowerWatt	Total output power in watt	5
All data V5	HasWirelessChargingInput	Has wireless charging input	TRUE
All data V5	HasPassThroughCharging	Has pass through charging	TRUE

All data V5	HasMagneticWirelessChargingOutput	Has magnetic wireless charging output	TRUE
All data V5	IsAirlineCarryOnApproved	Airline carry on approved	TRUE
All data V5	ChargeSimultaneousDevices	Charge how many devices same time	3
All data V5	ChargingIndicator	Item has a charging indicator	TRUE
All data V5	HasFastCharging	Item has fast charging	TRUE
All data V5	ChargingPowerWatt	Charging power in Watt	10
All data V5	WirelessCharging	Item has wireless charging	TRUE
All data V5	PowerbankCapacity	Capacity of powerbank in mAh	10000
All data V5	HasSolarPanel	Item has solar panel	TRUE
All data V5	SolarInputPower	Solar input power	1.1W (5.5V/200mA)
All data V5	HasUV400Filter	Item has UV 400 filter	TRUE
All data V5	HasPolarizedGlasses	Item has polarized glasses	TRUE
All data V5	SunglassCategory	Sunglasses category	category 3
All data V5	TextileSize	Size of the product	XXL
All data V5	TextileStyle	Gender	Unisex
All data V5	Care Instruction	Care instructions	Gentle washing 30° degrees, no tumble dry, ironing 110°
All data V5	Sleeve Length	Length of the sleeve	Short
All data V5	Neckline	Neck lining of the product	Round
All data V5	Fit	The fitting of the clothing	Regular
All data V5	Fabric Grams per m2	The weight of the fabric per m2	180
All data V5	Fabric	Kind of fabric	Single jersey
All data V5	Has neck label	Item has off-centered neck label	TRUE
All data V5	Has Tear-away label	Item has a tear-away label	TRUE
All data V5	Undyed	Item is undyed	TRUE
All data V5	MeasuringTapeColor	Color of the measuring tape	yellow
All data V5	HasAutoStop	Has auto stop	TRUE
All data V5	HasMagnet	Has a magnet	TRUE
All data V5	HasSlowRetractFunction	Has slow retract function	TRUE
All data V5	TapeWidthMM	Width of the measuring tape	16
All data V5	NumberOfFunctions	Number of functions (for instance a multitool)	4
All data V5	IsMeasuringTapeDoubleSided	Measuring tape is double sided	TRUE
All data V5	MeasuringSystem	Measuring system	cm
All data V5	BeamDistanceMeters	Beam distance in meters	500
All data V5	NumberOfLightModes	Number of lightmodes	3
All data V5	OperatingTimeHours	Operating time in hours	8
All data V5	IsRechargable	Item is rechargable	TRUE
All data V5	Lumen	Lumen	800
All data V5	TapeLengthMeters	Tape length in meters	5
All data V5	LightSource	Type of light source	Cree™ LED
All data V5	LightSourceQty	Number of lights	3
All data V5	CanopyDiameterCM	Diameter of the canopy in cm	95
All data V5	UmbrellaMechanism	Umbrella mechanism	open automatically, close manually
All data V5	IsStormProof	Umbrella is stormproof	TRUE
All data V5	InputSpeedVoltAmpere	Minimum input requirement	12V/1.67A
All data V5	NumberOfWirelessChargingCoils	Wireless Charging Coil QTY	2
All data V5	PenMechanism	Open mechanism of the pen	Twist-action
All data V5	PenRefillType	Pen refill type	Cross
All data V5	Total CO2 emissions	Total CO2 emission in kg (recommended to use for total CO2 footprint)	5,96
All data V5	Total CO2 emissions benchmark	Total CO2 emission in kg of benchmark (recommended to use to compare total CO2 footprint)	10,34
All data V5	M2F CO2 emissions KG	Made 2 Flow - CO2 total emissions in KG	5,96
All data V5	M2F CO2 benchmark KG	Made 2 Flow - CO2 benchmark in KG	10,34
All data V5	M2F CO2 saving Percent	Made 2 Flow - CO2 saving percentage	36,00
All data V5	M2F water usage M3	Made 2 Flow - water usage in m3	1,40

All data V5	M2F water benchmark M3	Made 2 Flow - water benchmark in m3	2,41
All data V5	M2F water saving Percent	Made 2 Flow - water saving percentage	42,00
All data V5	M2F land usage M2	Made 2 Flow - land usage in m2	1,93
All data V5	M2F land benchmark M2	Made 2 Flow - land benchmark in m2	3,84
All data V5	M2F land usage saving Percent	Made 2 Flow - land usage saving percentage	3,50
All data V5	LCA Total CO2 Kg emissions	Life Cycle Assessment - total CO2 footprint in kg	0,43
All data V5	LCA Total CO2 Kg emissions benchmark	Life Cycle Assessment - total CO2 footprint in kg Benchmark	0,00
All data V5	LCA CO2 Gr Material and Production	Life Cycle Assessment CO2 emission of Material and Production in grams	332,44
All data V5	LCA CO2 Gr Packaging	Life Cycle Assessment CO2 emission of Packaging in grams	7,08
All data V5	LCA CO2 Gr Transport	Life Cycle Assessment CO2 emission of Transport in grams	42,78
All data V5	LCA CO2 Gr Electronics and Energy	Life Cycle Assessment CO2 emission of Electronics and Energy in grams	0,00
All data V5	LCA CO2 Gr EOL	Life Cycle Assessment CO2 emission End of life in grams	0,97
All data V5	LCA CO2 Percent Material and Production	Life Cycle Assessment CO2 emission percentage of Material and Production	77,04
All data V5	LCA CO2 Percent Packaging	Life Cycle Assessment CO2 emission percentage of Packaging	1,64
All data V5	LCA CO2 Percent Transport	Life Cycle Assessment CO2 emission percentage of Transport	9,91
All data V5	LCA CO2 Percent Electronics and energy	Life Cycle Assessment CO2 emission percentage of Electronics and Energy	0,00
All data V5	LCA CO2 Percent EOL	Life Cycle Assessment CO2 emission percentage of End of Life phase	11,18

All data V5	AllPrintCodes	All available print codes for this item	Screen Transfer OS,Digital Transfer OS
All data V5	PrintCodeDefault	Print code for default print option, can be used to find the matching print prices in the print prices feed	Screen Transfer OS

All data V5	PrintTechniqueDefault	Name of print technique for default print option, one print technique can have multiple print codes (e.g. digital print, pad print)	Screen transfer
All data V5	PrintPositionDefault	Location where item can be printed for default print option	item front up
All data V5	MaxPrintWidthDefaultMM	Max print width in mm for default print option	20
All data V5	MaxPrintHeightDefaultMM	Max print height in mm for default print option	60
All data V5	MaxPrintAreaDefault	Max print area sizes combined for default print option (txt)	20 x 60 mm
All data V5	MaxColorsDefault	Maximum possible print colors for default print option	1
All data V5	FullColorDefault	Print technique can be printed in full color (CMYK), you will be charged one fixed setup fee regardless of the number of colors in your print	TRUE
All data V5	LineDrawingDefault	Image with max print area marked for default print option	http://static.xindao.com/ProductDecorationImages/P438.051__LaserEngraving3_itemfront__df3f9b7001a5427aa92d492fd133268e.png
All data V5	VariableDataPrinting	For one of the print options (excl. customized sleeves) of this item personalized printing is possible	TRUE
All data V5	CustomSleevePossible	Customized sleeve is possible	TRUE
All data V5	GiftWrappingPossible	Gift wrapping is possible	TRUE
All data V5	NonStandardDiscount	Items that might have a lower discount as your standard customer specific discount %	TRUE
All data V5	Outlet	Discontinued items with a discounted price, can be added to your 'Sale' page	TRUE
All data V5	Qty1	Tier 1 used for blank product prices (starting from)	1
All data V5	Qty2	Tier 2 used for blank product prices (starting from)	50
All data V5	Qty3	Tier 3 used for blank product prices (starting from)	100
All data V5	Qty4	Tier 4 used for blank product prices (starting from)	250
All data V5	Qty5	Tier 5 used for blank product prices (starting from)	500
All data V5	Qty6	Tier 6 used for blank product prices (starting from)	1000
All data V5	ItemPriceNet_Qty1	Net item price per piece for quantities from tier 1 to tier 2	3,95
All data V5	ItemPriceNet_Qty2	Net item price per piece for quantities from tier 2 to tier 3	3,95
All data V5	ItemPriceNet_Qty3	Net item price per piece for quantities from tier 3 to tier 4	3,95
All data V5	ItemPriceNet_Qty4	Net item price per piece for quantities from tier 4 to tier 5	3,95
All data V5	ItemPriceNet_Qty5	Net item price per piece for quantities from tier 5 to tier 6	3,95
All data V5	ItemPriceNet_Qty6	Net item price per piece for quantities from tier 6 and above	3,95
All data V5	ItemPriceGross_Qty1	Gross item price per piece for quantities from tier 1 to tier 2	3,95
All data V5	ItemPriceGross_Qty2	Gross item price per piece for quantities from tier 2 to tier 3	3,95
All data V5	ItemPriceGross_Qty3	Gross item price per piece for quantities from tier 3 to tier 4	3,95
All data V5	ItemPriceGross_Qty4	Gross item price per piece for quantities from tier 4 to tier 5	3,95
All data V5	ItemPriceGross_Qty5	Gross item price per piece for quantities from tier 5 to tier 6	3,95
All data V5	ItemPriceGross_Qty6	Gross item price per piece for quantities from tier 6 and above	3,95
All data V5	PrintPriceDefaultNet_Qty1	Net print price per piece for quantities from tier 1 to tier 2	3,35
All data V5	PrintPriceDefaultNet_Qty2	Net print price per piece for quantities from tier 2 to tier 3	2,33
All data V5	PrintPriceDefaultNet_Qty3	Net print price per piece for quantities from tier 3 to tier 4	1,81
All data V5	PrintPriceDefaultNet_Qty4	Net print price per piece for quantities from tier 4 to tier 5	1,54
All data V5	PrintPriceDefaultNet_Qty5	Net print price per piece for quantities from tier 5 to tier 6	1,46
All data V5	PrintPriceDefaultNet_Qty6	Net print price per piece for quantities from tier 6 and above	1,39
All data V5	PrintPriceDefaultGross_Qty1	Gross print price per piece for quantities from tier 1 to tier 2	3,35
All data V5	PrintPriceDefaultGross_Qty2	Gross print price per piece for quantities from tier 2 to tier 3	2,33
All data V5	PrintPriceDefaultGross_Qty3	Gross print price per piece for quantities from tier 3 to tier 4	1,81
All data V5	PrintPriceDefaultGross_Qty4	Gross print price per piece for quantities from tier 4 to tier 5	1,54
All data V5	PrintPriceDefaultGross_Qty5	Gross print price per piece for quantities from tier 5 to tier 6	1,46
All data V5	PrintPriceDefaultGross_Qty6	Gross print price per piece for quantities from tier 6 and above	1,39
All data V5	AllinPriceNet_Qty1	Net all-in price for quantities from tier 1 to tier 2 (net item price + net print price, excluding setup costs)	7,30
All data V5	AllinPriceNet_Qty2	Net all-in price for quantities from tier 2 to tier 3 (net item price + net print price, excluding setup costs)	6,28
All data V5	AllinPriceNet_Qty3	Net all-in price for quantities from tier 3 to tier 4 (net item price + net print price, excluding setup costs)	5,76

All data V5	AllinPriceNet_Qty4	Net all-in price for quantities from tier 4 to tier 5 (net item price + net print price, excluding setup costs)	5,49
All data V5	AllinPriceNet_Qty5	Net all-in price for quantities from tier 5 to tier 6 (net item price + net print price, excluding setup costs)	5,41
All data V5	AllinPriceNet_Qty6	Net all-in price for quantities from tier 6 and above (net item price + net print price, excluding setup costs)	5,34
All data V5	AllinPriceGross_Qty1	Gross all-in price for quantities from tier 1 to tier 2 (gross item price + gross print price, excluding setup costs)	7,30
All data V5	AllinPriceGross_Qty2	Gross all-in price for quantities from tier 2 to tier 3 (gross item price + gross print price, excluding setup costs)	6,28
All data V5	AllinPriceGross_Qty3	Gross all-in price for quantities from tier 3 to tier 4 (gross item price + gross print price, excluding setup costs)	5,76
All data V5	AllinPriceGross_Qty4	Gross all-in price for quantities from tier 4 to tier 5 (gross item price + gross print price, excluding setup costs)	5,49
All data V5	AllinPriceGross_Qty5	Gross all-in price for quantities from tier 5 to tier 6 (gross item price + gross print price, excluding setup costs)	5,41
All data V5	AllinPriceGross_Qty6	Gross all-in price for quantities from tier 6 and above (gross item price + gross print price, excluding setup costs)	5,34
All data V5	SetupNet	Net setup costs for default print technique (no gross price available)	37,00
All data V5	PrintSampleNet	Net price for a printed approval sample for default print option, excluding blank product sample costs and print tier price per piece (no gross price available)	37,00
All data V5	SmallOrderChargeNet	Net price charged for all print orders with an order size of < 50 pieces (no gross price available). If '0' then we don't charge anything extra for small orders for this print technique	0,00
All data V5	MOQBlankOrder	Minimum order quantity for a blank order	1
All data V5	MOQPrintOrder	Minimum order quantity for a print order for default print technique	1
All data V5	CurrentStock	Stock quantity now available	3878
All data V5	FutureIncomingStockDate1	Date of first next incoming stock	11-11-2023
All data V5	FutureIncomingStockQty1	Quantity of first next incoming stock	1512
Product data V5	FeedCreatedDateTime	Date and time when the feed is created	21-9-2023
Product data V5	ItemDataLastModifiedDateTime	Date and time when product data was modified	14-9-2023
Product data V5	ModelCode	Code for the complete product model including all underlying colors. This can be used to group the different colors (item codes) of the same product	P322.70
Product data V5	ItemCode	Unique item code for the specific color (SKU)	P322.705
Product data V5	ProductLifeCycle	Current life cycle status of item, options: new, current or outlet	Current
Product data V5	IntroDate	Date of introduction of the item, not available for all our items	44567
Product data V5	ItemName	Item name, can also be used as a meta title for your images	Urban Vitamin Alameda 10.000 mAh 18W PD powerbank
Product data V5	LongDescription	Long item description	Charge your phone up to 2.5 times with this fast charging powerbank. Thanks to the ultra fast type C 18W PD port, the powerbank re-charges in record time. Charging your phone up to 50% takes only 30 minutes. Slow charging is something from the past. The powerbank contains a long lasting A-grade 10.000 mah battery to charge all your devices on your travels and adventures. The double USB A and type C port allow you to charge up to 3 devices at the same time. Urban Vitamin items are made without PVC and packed in plastic reduced packaging. Type-C Input: 5V/3A, 9V/2A; Micro USB Input: 5V/2A, 9V/2A; Type-C Output: 5V/3A, 9V/2A, 12V/1.5A; USB Output: 5V/2.4A, 9V/2A, 12V/1.5A
Product data V5	Brand	Brand name	Urban Vitamin
Product data V5	MainCategory	Product main category	Phone & Tablet accessories
Product data V5	SubCategory	Product sub category	Powerbanks
Product data V5	Material	Material of item (first and second material)	Acrylonitril Butadiene Styrene (ABS)
Product data V5	Color	Color of item (first and second color)	blue
Product data V5	PMSColor1	PMS code for first item color	2161C
Product data V5	PMSColor2	PMS code for second item color	Orange 021
Product data V5	HexColor1	Hex code for first item color	2882DC
Product data V5	HexColor2	Hex code for second item color	3D332B
Product data V5	InkColor	Pen ink color	blue

Product data V5	ItemLengthCM	Item length in cm	9,5
Product data V5	ItemWidthCM	Item width in cm	6,3
Product data V5	ItemHeightCM	Item height in cm	2,3
Product data V5	ItemDiameterCM	Item diameter in cm	6,5
Product data V5	ItemDimensions	Item sizes combined (txt)	9.5 x 6.3 x 2.3 cm
Product data V5	ItemWeightNetGr	Weight of item in grams	196
Product data V5	ItemWeightGrossGr	Weight of item and everything that comes with the item in grams (item packaging, manual, cables etc)	326
Product data V5	CountryOfOrigin	Country where item has been produced	CHN
Product data V5	CommodityCode	Code used to classifying goods for import and export, also called HS code, Intrastat code or customs code	8507600090
Product data V5	EANCode	EAN code	8714612127674
Product data V5	WEEE	Waste Electrical and Electronic Equipment	TRUE
Product data V5	Batteries	Item needs batteries to function, batteries are always included	TRUE
Product data V5	BatteryType	Type of battery	Li-poly
Product data V5	NrOfBatteries	Number of batteries needed and included	2
Product data V5	BatteryWeightGr	Battery weight in grams (per piece)	80
Product data V5	BatteryChemicalComposition	In development - Chemical composition of battery	Lithium
Product data V5	IECCode	IEC battery code	115570
Product data V5	ItemManual	Digital version of the manual that comes with the item	https://static.xindao.com/ProductManuals/Manual P322.70X__1e686b2d73a9423783a2b9f1f80f6905.pdf
Product data V5	PackagingTypeItem	Packaging type of item	Gift box
Product data V5	ItemBoxLengthCM	Length of individual item box in cm	16,5
Product data V5	ItemBoxWidthCM	Width of individual item box in cm	11
Product data V5	ItemBoxHeightCM	Height of individual item box in cm	3
Product data V5	ItemBoxDiameterCM	Diameter of individual item box in cm	13,3
Product data V5	ItemBoxDimensions	Individual item box sizes combined (txt)	16.5 x 11 x 3 cm
Product data V5	OuterCartonLengthCM	Length of outer carton in cm	35
Product data V5	OuterCartonWidthCM	Width of outer carton in cm	17,5
Product data V5	OuterCartonHeightCM	Height of outer carton in cm	24,5
Product data V5	OuterCartonDimensions	Outer carton sizes combined (txt)	35 x 17.5 x 24.5 cm
Product data V5	OuterCartonWeightNetKG	Total net weight of items in a full outer carton in kg (ItemWeightNetGr x OuterCartonQuantity)	6,5
Product data V5	OuterCartonWeightGrossKG	Total gross weight of all items, packagings and extras in a full outer carton in kg (ItemWeightGrossGr x OuterCartonQuantity + packaging weight inner boxes & outer carton)	7
Product data V5	InnerboxQty	Quantity in pieces per inner box	1
Product data V5	OuterCartonQty	Total quantity in pieces in outer carton	20
Product data V5	RestrictedCountriesForSale	Countries where that item cannot be sold.	CHE, DE
Product data V5	Mailable	Item fits through the letterbox	TRUE
Product data V5	Compliance	Regulations, policies and procedures where item has been tested on	Conform PAHS content in Reach & ZEK 01-4-08, Conform Phtalate content, Conform Battery transportation safety directive UN38.3, Air transport certificate used for air shipment, Conform Alkaline batteries safety directive EN62133, Free from short- and medium-chain chlorinated paraffins, Conform protection against electric shock and energy hazards directive EN60950-1, Material safety data sheet available, Conform Hazardous substances directive 2011/65/EC & 2015/863, Conform Electromagmetic directive 2014/30/EU
Product data V5	Certifications	Available URL to certificate(s) of the product	https://static.xindao.com/ProductCertificates/Declaration of conformity EU P322.70X__41a60f5c0ea745fd9bb0d40ad6506aab.pdf , https://static.xindao.com/ProductCertificates/Statement of compliance P322.70X__a3acbffa48f745df9ad175f5995d4138.pdf , https://static.xindao.com/ProductCertificates/Testreport MSDS P322.70X__7ac2bfe9b6874f56b4f8f565c60b5f23.pdf , https://static.xindao.com/ProductCertificates/Declaration of conformity UKCA P322.70X__2e59ff733e3c425d8877f016506e0f1a.pdf
Product data V5	DangerousGoods	Regulation of dangerous goods	UN3480 Section 1B
Product data V5	Social Audits	The item is made in a factory that passed this social audit	BSCI
Product data V5	Eco	Item with a lower impact on the environment	TRUE
Product data V5	Traceability	Traceability claim(s) of recycled materials	FSC 100%, RCS Blended

Product data V5	Charity	Supported charity	Water.org
Product data V5	Used PET Bottles	How many PET bottles were used for production of 1 piece	7,1
Product data V5	PVC free	Is the product PVC free	TRUE
Product data V5	Recycled Content Percent	Percentage of the recycled content of the item	47
Product data V5	Digital passport	URL to the digital passport of the item	http://www.wearaware.co/PU037421-T9100.001
Product data V5	HasFSCPackaging	Has FSC Packaging	TRUE
Product data V5	HasPlasticFreePackaging	Item has plastic free packaging	TRUE
Product data V5	Product Box net weight plastic GR	Net weight of plastic packaging material in grams	15
Product data V5	Product Box net weight carton GR	Net weight of carton of product box in grams	203
Product data V5	Product Box net weight other GR	Net weight of other material product box in grams	4
Product data V5	Product Box gross weight GR	Gross weight of product box grams	218
Product data V5	Dishwasher safe	Item is dishwasher safe	TRUE
Product data V5	Carry handle	Item has a carrying handle	TRUE
Product data V5	CarryHandleType	the type of the carrying handle	Carry loop
Product data V5	HasANC	Item has Active Noise Cancelling	TRUE
Product data V5	ANCLevelDB	Level of Active Noise Cancelling in decibel	25
Product data V5	HasAutoPair	item has automatic pairing function	TRUE
Product data V5	ChargingCaseBatteryCapacityMAh	Battery size charging case	600
Product data V5	EarbudBatteryCapacityMAh	Battery size earbud	300
Product data V5	BTVersion	BT version	5.3
Product data V5	InputChargingConnectorType	Charging connector type	Type-C
Product data V5	ChargingTimeHours	Charging time in hours	3
Product data V5	HasENC	Has environmental noise cancelling	TRUE
Product data V5	ExtraEarTipsIncluded	Extra ear tips included in the item	TRUE
Product data V5	IsFoldable	Item is foldable	TRUE
Product data V5	HasPouch	Pouch is included	TRUE
Product data V5	ChargingCableIncluded	Charging cable included	TRUE
Product data V5	HasIntegratedLight	Item has an integrated light	TRUE
Product data V5	HasMicrophone	Item has microphone	TRUE
Product data V5	OperatingDistanceMeters	Operating distance in meters	10
Product data V5	AudioWearMethod	Audiowear method ID	over ear
Product data V5	HasPickupFunction	Item has a pick up function	TRUE
Product data V5	PlayTimeHours	Play time in hours	30
Product data V5	HasSubwoofer	Item has a subwoofer	TRUE
Product data V5	HasTouchFunction	Item has a touch function	TRUE
Product data V5	HasUSBOutput	Item has USB output	TRUE
Product data V5	HasVoiceControl	Item has voice control	TRUE
Product data V5	HasBluetooth	Item has bluetooth	TRUE
Product data V5	NumberOfSpeakers	Number of speakers	2
Product data V5	SpeakerOutputW	Speaker power in Watt	10
Product data V5	WaterproofLevel	The waterproof level of the item	IPX 7
Product data V5	HasChestStrap	Item has a chest strap	TRUE
Product data V5	FitsLaptopTabletSizeInches	Fits laptop and tablets in inches	17
Product data V5	MaximumSupportedCurrent	Maximum supported current	5V/2A - 9V/2A
Product data V5	SupportsCarPlay	Supports Car Play	TRUE
Product data V5	HasLightningOutput	Has lightning output	TRUE
Product data V5	HasMicroUSBOutput	Has micro USB output	TRUE
Product data V5	ChargingCableLengthCM	Cable length in cm	100
Product data V5	CanCableSync	Is able to sync (transfer data)	TRUE
Product data V5	IsMicrowaveSafe	Item is microwave safe	TRUE
Product data V5	Leak Prevention	Leak prevention of item	spillproof
Product data V5	Insulation	Type of insulation	plastic
Product data V5	HoursHot	Keeps hot in hours	2
Product data V5	HoursCold	Keeps cold in hours	4

Product data V5	FitsCoffeeMachine	Fits under a coffee machine	TRUE
Product data V5	ContentVolumeLiters	Content volume in liters	0,6
Product data V5	CircumferenceCM	The circumference of the hat in cm	58
Product data V5	HatClosureType	Closure type of the hat	buckle
Product data V5	HatModel	Kind of hat model	6 Panel cap
Product data V5	USBVersion	USB Version	USB C
Product data V5	USBAPortQty	Number of USB A ports	3
Product data V5	USBCPortQty	Number of USB C ports	1
Product data V5	LaserClass	Laser class	Class 3
Product data V5	BookCoverType	Cover type (hardcover, softcover)	hardcover
Product data V5	NotebookFormat	Size of the notebook	A5
Product data V5	PaperWeight	Paper weight (gr/m2)	80
Product data V5	StationaryPaperColor	Paper color	cream
Product data V5	NumberOfPages	Number of pages	160
Product data V5	PaperRulingLayout	Paper ruling layout	lined pages
Product data V5	USBAChargingOutputSpeed	USB-A charging output speed	5V/1A + 5V/2A
Product data V5	USBCChargingOutputSpeed	USB-C charging output speed	5V/2A
Product data V5	PhoneChargeCount	How many times to charge phone	5
Product data V5	HasUSBCOutput	Has USB C output	TRUE
Product data V5	CanChargeTablet	Can charge a tablet	TRUE
Product data V5	CanChargeLaptop	Can charge a laptop	TRUE
Product data V5	TotalOutputPowerWatt	Total output power in watt	5
Product data V5	HasWirelessChargingInput	Has wireless charging input	TRUE
Product data V5	HasPassThroughCharging	Has pass through charging	TRUE
Product data V5	HasMagneticWirelessChargingOutput	Has magnetic wireless charging output	TRUE
Product data V5	IsAirlineCarryOnApproved	Airline carry on approved	TRUE
Product data V5	ChargeSimultaneousDevices	Charge how many devices same time	3
Product data V5	ChargingIndicator	Item has a charging indicator	TRUE
Product data V5	HasFastCharging	Item has fast charging	TRUE
Product data V5	ChargingPowerWatt	Charging power in Watt	10
Product data V5	WirelessCharging	Item has wireless charging	TRUE
Product data V5	PowerbankCapacity	Capacity of powerbank in mAh	10000
Product data V5	HasSolarPanel	Item has solar panel	TRUE
Product data V5	SolarInputPower	Solar input power	1.1W (5.5V/200mA)
Product data V5	HasUV400Filter	Item has UV 400 filter	TRUE
Product data V5	HasPolarizedGlasses	Item has polarized glasses	TRUE
Product data V5	SunglassCategory	Sunglasses category	category 3
Product data V5	TextileSize	Size of the product	XXL
Product data V5	TextileStyle	Gender	Unisex
Product data V5	Care Instruction	Care instructions	Gentle washing 30° degrees, no tumble dry, ironing 110°
Product data V5	Sleeve Length	Length of the sleeve	Short
Product data V5	Neckline	Neck lining of the product	Round
Product data V5	Fit	The fitting of the clothing	Regular
Product data V5	Fabric Grams per m2	The weight of the fabric per m2	180
Product data V5	Fabric	Kind of fabric	Single jersey
Product data V5	Has neck label	Item has off-centered neck label	TRUE
Product data V5	Has Tear-away label	Item has a tear-away label	TRUE
Product data V5	Undyed	Item is undyed	TRUE
Product data V5	MeasuringTapeColor	Color of the measuring tape	yellow
Product data V5	HasAutoStop	Has auto stop	TRUE
Product data V5	HasMagnet	Has a magnet	TRUE
Product data V5	HasSlowRetractFunction	Has slow retract function	TRUE
Product data V5	TapeWidthMM	Width of the measuring tape	16
Product data V5	NumberOfFunctions	Number of functions	4

Product data V5	IsMeasuringTapeDoubleSided	Measuring tape is double sided	TRUE
Product data V5	MeasuringSystem	Measuring system	cm
Product data V5	BeamDistanceMeters	Beam distance in meters	500
Product data V5	NumberOfLightModes	Number of lightmodes	3
Product data V5	OperatingTimeHours	Operating time in hours	8
Product data V5	IsRechargable	Item is rechargable	TRUE
Product data V5	Lumen	Lumen	800
Product data V5	TapeLengthMeters	Tape length in meters	5
Product data V5	LightSource	Type of light source	Cree™ LED
Product data V5	LightSourceQty	Number of lights	3
Product data V5	CanopyDiameterCM	Diameter of the canopy in cm	95
Product data V5	UmbrellaMechanism	Umbrella mechanism	open automatically, close manually
Product data V5	IsStormProof	Umbrella is stormproof	TRUE
Product data V5	InputSpeedVoltAmpere	Minimum input requirement	12V/1.67A
Product data V5	NumberOfWirelessChargingCoils	Wireless Charging Coil QTY	2
Product data V5	PenMechanism	Open mechanism of the pen	Twist-action
Product data V5	PenRefillType	Pen refill type	Cross
Product data V5	Total CO2 emissions	Total CO2 emission in kg (recommended to use for total CO2 footprint)	5,96
Product data V5	Total CO2 emissions benchmark	Total CO2 emission in kg of benchmark (recommended to use to compare total CO2 footprint)	10,34
Product data V5	M2F CO2 emissions KG	Made 2 Flow - CO2 total emissions in KG	5,96
Product data V5	M2F CO2 benchmark KG	Made 2 Flow - CO2 benchmark in KG	10,34
Product data V5	M2F CO2 saving Percent	Made 2 Flow - CO2 saving percentage	36,00
Product data V5	M2F water usage M3	Made 2 Flow - water usage in m3	1,40
Product data V5	M2F water benchmark M3	Made 2 Flow - water benchmark in m3	2,41
Product data V5	M2F water saving Percent	Made 2 Flow - water saving percentage	42,00
Product data V5	M2F land usage M2	Made 2 Flow - land usage in m2	1,93
Product data V5	M2F land benchmark M2	Made 2 Flow - land benchmark in m2	3,84
Product data V5	M2F land usage saving Percent	Made 2 Flow - land usage in m2	50,00
Product data V5	LCA Total CO2 Kg emissions	Life Cycle Assessment - total CO2 footprint in kg	1,81
Product data V5	LCA Total CO2 Kg emissions benchmark	Life Cycle Assessment - total CO2 footprint in kg Benchmark	1,53
Product data V5	LCA CO2 Gr Material and Production	Life Cycle Assessment CO2 emission of Material and Production in grams	1370,62
Product data V5	LCA CO2 Gr Packaging	Life Cycle Assessment CO2 emission of Packaging in grams	19,50
Product data V5	LCA CO2 Gr Transport	Life Cycle Assessment CO2 emission of Transport in grams	111,07
Product data V5	LCA CO2 Gr Electronics and Energy	Life Cycle Assessment CO2 emission of Electronics and Energy in grams	183,03
Product data V5	LCA CO2 Gr EOL	Life Cycle Assessment CO2 emission End of life in grams	19,30
Product data V5	LCA CO2 Percent Material and Production	Life Cycle Assessment CO2 emission percentage of Material and Production	75,62
Product data V5	LCA CO2 Percent Packaging	Life Cycle Assessment CO2 emission percentage of Packaging	1,08
Product data V5	LCA CO2 Percent Transport	Life Cycle Assessment CO2 emission percentage of Transport	6,13
Product data V5	LCA CO2 Percent Electronics and energy	Life Cycle Assessment CO2 emission percentage of Electronics and Energy	10,10
Product data V5	LCA CO2 Percent EOL	Life Cycle Assessment CO2 emission percentage of End of Life phase	6,01
